

How to Link your Golf Canada account to your Arizona Golf Association Account

- Send an email to members@golfcanada.ca with the following information
- Your name
- The name of your Canadian Golf Club that you post from at home
- Your Arizona Golf Association GHIN number

They will link your accounts so that you only have to enter your scores once and they will be pushed to the other account. Your handicap will then be up to date at all times.

Note: The scores are pushed over night so they don't show up immediately. Also, any fixes are not pushed so if Shane has to fix your scores here, you need to email Golf Canada with the fix and they will fix it at home too. If you try to fix it yourself at home, it will push back here and get messy.
Questions: Call Joanne Weiss or email golf Canada at the above address.
